

## What Contractors Should Know About The Tax Gap

Not reporting or under-reporting business income, including income from construction activities, contributes to the tax gap. Contractors, subcontractors, as well as individual workers need to be aware of everything that counts as income and proper accounting methods, so they pay their fair share of taxes. They also need to be aware of all deductible expenses, so they don't overpay their taxes.

To find more resources on the tax gap — the difference between the amount of tax that taxpayers should pay and the amount that is paid voluntarily and on time - go to the **Tax Gap Website** at: <http://www.irs.gov/newsroom/article/0,,id=158619,00.html>

## CSN, TMCC Offering Classes For Nevada Contractors
